PLEASE PROVIDE THE FOLLOWING:

NAME: _____

ADDRESS: _____

PHONE: _____

PLEASE READ: Fill in the number of each kind of tree you want. The prices DO NOT INCLUDE the 6.5% sales tax on the trees. Please do not send payment with the order form as we will calculate the total cost and send you an invoice. Your order must be paid in full by Feb 1st to confirm the order. NO REFUNDS AFTER FEB 1st!! The species of the trees are subject to change due to availability. **WE RECEIVE ALL OF OUR TREES IN BUNDLES OF 25 AND THEY ARE \$35 PER BUNDLE or \$2 PER TREE.** There are many factors to consider when planning your tree planting (ie. Ground preparation, location of utilities, proximity to buildings, and roads, etc) If you would like assistance with your planning or questions about the trees, feel free to give us a call. Thank you for your business. We look forward to working with you!! Also available: POLYMER WATER CRYSTAL- 1lb. bag. **PLEASE SPECIFY IF YOU ARE GETTING A BUNDLE AND/ OR A SINGLE TREE. PRICES SUBJECT TO CHANGE.**

Total amount of bundles: _____

Please make checks payable to the Pennington Conservation District.

All orders are subject to availability of nursery stock. You will be contacted in the spring when your trees are ready for pick up. Numerous conditions over which we have no control often govern results that customers may have with plants. Because of these conditions of which we can exercise no control, it is impossible to guarantee planting results and continued growth of plants. All trees are conservation size seedlings. (2-3 years old)

Specialty Items (Tall Trees \$5 (each))

Autumn Joy Sedum _____

Feather Reed 'Karl' _____

Lady's Mantle _____

May Night Saliva _____

Pasque Flower _____

Russian Sage _____

Victoria Rhubarb _____

NOW AVAILABLE WEED BARRIER FABRIC MULCH AND INSTALLATION

WHY USE FABRIC MULCH?

- ◆ Enhanced survival and growth on trees and shrubs. The percent of survival is usually above 95% as compared to 50% or less.
- ◆ Eliminates the need for cultivation, drip systems, weed badger work, and chemicals on most plantings.
- ◆ In a Wyoming experiment, soil moisture was measured for two years under fabric and in nearby clean cultivation plots. Results indicate that soil moisture under the fabric did not fall below 80% of field capacity while dropping to nearly 3% under clean cultivation.
- ◆ Tree and shrub plantings and fabric installation can both be done by machine thus the entire operation is fast and efficient.

COST OF FABRIC AND INSTALLATION:

- ◆ \$0.60 per linear foot (in 6 ft. width) for installations over 900 lin.ft.
- ◆ For installations less than 900 lin.ft., add a \$50.00 set down fee per installation
- ◆ Fabric mulch rolls and squares are also available for purchase. Contact the Conservation District for widths and pricing.

COST OF TREE AND SHRUB PLANTING:

\$2.00 per tree/shrub and machine planting. You provide a minimum 50 HP tractor and driver. Ground **must** be properly prepared.

For installations less than 200 trees, add a \$50.00 set down fee per planting.

Help must be provided to heel in the trees after planting.

NO- TILL GRASS SEEDING DRILL is now available through the District, call 342-0301 ext 3 for information.

FOR ADDITIONAL INFORMATION CONTACT THE PENNINGTON CONSERVATION DISTRICT AT 414 E Stumer Rd, Ste #300, RAPID CITY, SD 57701 OR PHONE (605) 342-0301 EXTENSION 3.
